Lesson Plan (Session 2025-2026)

Class: B.COM

Name of the Course: Financial Accounting (CC-1)

Dates: 22 July, 2025 – 24 Nov., 2025

Semester: **I (A&B)**

Course Code: B23-COM-101

SYLLABUS

Maximum Marks: 100

End Term Exam Marks: 70 Marks

Note: Examiner will be required to set nine questions in all. First question will be compulsory, consisting of short type question covering the entire syllabus in addition to that eight more questions will be set, two question from each unit. Students will be required to attempt in all. In addition to the compulsory question, student will have to attempt four more questions selecting one question from each unit.

Time: 3 hours

Assessment: 30 Marks

Unit	Topics	Contact Hours
Unit: I	Financial accounting: Concept, objectives & scope; Accounting as an information system; Accounting principles: Concepts and conventions; Double entry system; A brief overview of accounting standards in India; Journal, Ledger & trial balance.	14
Unit: II	Capital and revenue: Concept and classification of income; Expenditure; Receipts; Provisions & reserves. Final Accounts: Trading & Profit and loss account and balance sheet with adjustments.	14
Unit: III	Accounting for non-profit organizations; Consignment accounts: accounting records; Normal and abnormal loss; Valuation of unsold stock.	16
Unit: IV	Branch accounts: dependent branch, debtor's system, stock and debtor system; Wholesale branch, Final accounts; Hire purchase and installment payment system: basic concepts, difference and accounting treatment.	16

Text Books:

- 1) Goyal , D.K.Financial Accounting . APC Publication.

Course Outcomes

After completing this course, the learner will be able to:

1. Recognize the basic accounting concept and conventions.
2. Cultivate accounting skills to manage the profits and losses of any trading organization.
3. Apply the rules of double entry book keeping for the preparation of final accounts.
4. To understand the concepts of branch & consignment accounts.

Class: B.COM

Semester: **I (A&B)**

Name of the Course: Business Mathematics-1(CC-M1)

Course Code: B23-COM-104

Dates: 22 July, 2025 – 24 Nov., 2025

SYLLABUS

Maximum Marks: 50

Time: 3 hours

End Term Exam Marks: 35 Marks

Assessment: 15 Marks

Note: Examiner will be required to set nine questions in all. First question will be compulsory, consisting of short type question covering the entire syllabus in addition to that eight more questions will be set, two question from each unit. Students will be required to attempt in all. In addition to the compulsory question, student will have to attempt four more questions selecting one question from each unit.

Unit	Topics	Contact Hours
Unit: I	Set Theory: Representation of sets, equivalent sets, power set, complement of a set. Venn Diagrams: Union and intersection of sets, De-Morgan's laws; Logical statements and truth tables.	8
Unit: II	Logarithms: Laws of operation, log tables; Arithmetic and geometric progression.	7
Unit: III	Matrices and Determinants: Definition of a matrix, order, equality, types of matrices; Operations on matrices: Addition, multiplication and multiplication with a scalar and their simple properties; Determinant of a square matrix (upto 3x 3 order): Properties of determinants, minors, co-factors and applications of determinants in finding the area of triangle, adjoint and inverse of a square matrix, solutions of a system of linear equations by examples.	8
Unit: IV	Compound interest and annuities: Different types of interest rates, types of annuities, present value and amount of an annuity (including the case of continuous compounding), valuation of simple loans and debentures, problems related to sinking funds.	7

Text Books:

- 1) M L Bhargava . Elements of Business Mathematics, Jeevansons Publication.

Course Outcomes

After completing this course, the learner will be able to:

1. To equip students with concepts of differentiation and integration
2. To understand about solution of a system of linear equations
3. Students will be able to understand about different types of matrices and determinants
4. To familiarize with calculus

Lesson Plan (Session 2025-2026)

Class: B.COM

Name of the Course: Cost Accounting (CC-13)

Dates: 22 July - 24 Nov.

Semester: V (A&B)

Course Code B23-COM-501

SYLLABUS

Maximum Marks: 100

End Term Exam Marks: 70 Marks

Note: Examiner will be required to set nine questions in all. First question will be compulsory, consisting of short type questions covering the entire syllabus in addition to that eight more questions will be set, two questions from each unit. Students will be required to attempt in all. In addition to the compulsory question, students will have to attempt four more questions selecting one question from each unit.

Time: 3 hours

Assessment: 30 Marks

Unit	Topics	Contact Hours
Unit: I	Cost Accounting: Nature, scope, principles, functions, methods and techniques, advantages and limitations; Installation of costing System: Role of cost accountant; Elements of cost, Cost concepts and classification.	16
Unit: II	Accounting for Material and Labour: Material planning and purchasing; Storage and issue of material; Pricing of material issues; Material control: Concept, objectives and techniques; Treatment of material losses; Labour cost: Composition and control procedure; Concept and treatment of labour turnover; Idle time; Overtime and fringe benefits; Methods of wage payment: Time and piece rate; Incentive schemes.	16
Unit: III	Overheads: Concept, classification, allocation, apportionment and absorption of overheads; Under and over absorption of overheads: Unit costing; Job and Batch costing.	14
Unit: IV	Methods of Costing: Contract costing; Process costing (process losses, joint and by-products); Service costing (Transport); Cost control and Cost Reduction.	14

Text Books:

1. S.P.Gupta, Ajay Sharma, Satish Ahuja. Cost Accounting .VK Global Publications.

Course Outcomes

After completing this course, the learner will be able to:

1. Illustrate the understanding of theoretical framework of basics of cost accounting and be able to classify the manufacturing cost of products.
2. Apply the knowledge and skills to control material and labor costs.
3. Understand the procedure of allocation, apportionment and absorption of overheads.
4. Integrate the Cost Accounting Techniques in various Industries.
